Profile

Hi, I'm Hariram V — a Full Stack Java Developer with 2 years of experience. I specialise in building scalable web applications using Java (Core & Java 8), Spring Boot, Spring Security, MySQL, and modern frontend technologies like HTML, CSS, and JavaScript. I also apply JUnit for testing and best practices for performance and security.

Skills

- Java
- Spring Boot
- MySql
- MariaDB
- Html
- Css
- SpringSecurity
- Git
- Junit

Projects

Probity

Financial Accounting Management

- Developed a full-stack web application to manage financial transactions, journal entries, and asset records.
- Implemented user-friendly interfaces for recording expenses, income, and generating financial reports.
- Integrated CRUD operations with database persistence using Spring Data JPA.
- Designed secure authentication and role-based access for administrators and users.
- Automated report generation (trial balance, P&L, balance sheet).

Java | Spring Boot | Spring Security | Thymeleaf | RestFul Webservices | MySQL | Ajax | JavaScript | HTML | CSS | Junit | Bootstrap
